Open book tests using the 2009 FAC are required for the USTA, ITA, and Referee schools. They are available on line at [www.usta.com](http://www.usta.com) – Get Involved – Officials. The completed answer sheets and online tests must be brought with you to the schools, or you will not pass; and you will have to attend another school. Each certified official must successfully complete an approved school for each certification category. New officials need to complete the Provisional test.

The new USTA officials database known as Nucula is now ready for you to register for your account. If you haven't already, we ask that you please register as soon as you can so that we can accept you into the system. Once accepted, you can make yourself available to work 2010 Pro Circuit events, register for schools, and record your work record. Simple guides are available that will help you through some of the features in the system.
